TILLMAN'S PITCHFORK USED ON ROOSEVELT

Carolinian Scathingly Scores the Chief Executive.

SAYS BLAME ON THE PRESIDENT

Characterized Discharge of Troopers Equal to Lynching—Blames Administration for Race Friction—President's Idea of Social Equality.

Washington, Jan. 15.—The senate listened to a debate on the race question in which Senator Tillman was the principal participant and Senator Patterson, of Colorado, his opponent, which brought into striking contrast the ideas of the south and north on this question.

President Roosevelt's action in the Brownsville matter was the subject of discussion.

The most fiery feature of Senator Tillman's speech, in which he directly approaches the personal side of the race situation in direct application to the president of the United States, is in these words:

"In six southern state (South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana) in the aggregate the negroes outnumber the whites and in two of them (South Carolina and Mississippi) the negro preponderance is very heavy

"Under the law these people possess every right that white men have as far as the federal constitution confers rights and the fifteen amendment expressly forbids the enactment of any law which shall discriminate in voting on account of the race or color.

"Large numbers of these negroes are disfranchised at this time, but these laws are only temporary and work no cure and in the near future enough negroes will be able to vote to make inevitable the struggle for mastery between the two races. In Cuba the color line has been obliterated and miscegenation is in full blast. At the north the same conditions exist and the large number of mulattoes and quadroons with white blood in their veins who have migrated there are the leaders of the doctrine of absolute social equality, encouraged as they have been and are now by the president of the United States. Take this from his message on the Brownsville affair:

"It is of the utmost importance to all of our white people that we shall deal with each man on his merits as a man and not deal with him merely as a member of a given race; that we shall judge each man by his conduct, and not by his color.'

"And again: 'Every far-sighted friends of the negro race in its efforts to strive onward and upward should teach first, as the most important lesson, alike to the white man and the black, the duty of treating the individual man strictly on his worth as he shows it."

"Consider the full import and meaning of these words and then consider whether they are sincere and honest or whether in the fervor of a fight to justify an unwarranted usurpation of power and exercise of executive authority the president forgot himself and said more than he intended or means. To illustrate, is it possible or desirable that all consideration of race and color shall be dismissed from our minds and not governored and all men of all races to be judged and treated on the basis of individual merit, are men to be made over and the caste feeling and race antagonisms of centuries to disappear in the universal brotherhood of man?

"Are there any senators in this audience who subscribe to this doctrine who would have the Caucasion highest and noblest of the five races as is attested by history, descend to the level of the others and share his birth right with them with the inevitable result that pure white blood will disappear from the face of the earth and after mixing of centuries shall have completed the amalgamation, have all men of one skin and one type?

"Is President Roosevelt ready to [illegible] theory and have his daughter-in-law a Chinese, a Malay, an Indian or a negro in accord with the doctrine laid down in his message which I have quoted?

"We all know he would not and while 'fine words butter no parsnips,' words like these are source of incalculable evil, coming from such a high source."

Venezuela Will Not Take Part.

Caracas, Venezuela, Jan. 15.—Venezuela will not take part in the Jamestown exposition, according to a decision just reached by the government. Announcement was made on Saturday to this effect and the further statement was made that it was impossible to make arrangements in response to the invitation which was accepted last year. The illness of President Castro is the reason given for this action. In view of the fact that until two weeks ago President Castro was officially reported in good health, the announcement is considered significant.

Want Pay Brought to Them.

Richmond, Va., Jan. 15.—Plasterers to the number of 100 employed on the construction work of the Jamestown Exposition have made good their threat to strike, and declare that they will not return to work unless thefr demands are complied with. They object to going to the office of the contractors to get their money once a week, and wish it brought to them while they are at work. They also ask an increase in pay from $5 to $6 a day. The contractors think the difficulty will be adjusted without serious delay to the exposition work.

Negro Killed By Elevator.

Atlanta, Jan. 15.—While running a freight elevator in the store of W. L. and W. M. Fain, Mercer Gowan, a negro, was killed. From reports it seems that Gowan was running the freight elevator, and looked out between two floors, his head being crushed by a down coming elevator. Death happened almost instantly. The coroner's jury were summoned, and held an inquest at the undertaking establishment of George Howard in the afternoon. A verdict of death from an accidental cause was rendered.

Miner Wolf's head was blown off, and his body burned almost to a cinder.

It is not known how many more men are in the mine, but it is thought six or seven more will be found dead.

TRAIN MANGLES MURERED MAN.

Slayers of Confederate Veteran Put Dead Body on Railroad Track.

Raleigh, N. C., Jan. 15.—Milton Bunnell, a Confederate veteran, was found dead on the Aberdeen and Ashboro railroad, near Star, N. C.

A freight train had run over him during the night and one leg and one arm were severed and the body cut and bruised. The peculiar appearance of wounds on the head and neck led to an inves igation by the coroner. The jury returned a verdict that the deceased had been killed with an ax or other sharp implement, and the body placed on the track to conceal the crime. It is evident that the motive for the murder was not robbery, as $195 in currency and $75 in gold coin were found in Bunnell's pockets.

A later report from Aberdeen says that Milton Bunnell was seen changing his money in Star Thursday, and when his body was found about $10, which was in a wallet, was missing, while $470 was found sewed in his clothing. After the verdict of the coroner's jury a bloody ax was found near the place, and a trail of blood showed that the body had been dragged three hundred yards to a curve and left on the rails, where it could not be seen by the engineer of the train

Of the eight passengers hurt none will die of their injuries.

DR. SMOKE PLEASED.

Says the Promotion of Roadmaster Robinson Was Deserving One.

The Sun is in receipt of a letter from its old friend and subscriber, Dr. S. D. Smoke, at Fort Ogden, in which he inquires regarding the date of his subscription, etc., stating that he loves The Sun, he loves to read it, and that it furnishes all the information of Gainesville and Alachua county.

Dr. Smoke is an old resident of this county, and is well known and highly respected. Notwithstanding that he has cast his lot with the good people of South Florida, he retains a kindly feeling and interest here, which he says will burn forever.

Dr. Smoke pays a high compliment to an Alachua county boy in the following words:

"I was very much gratified when I saw in The Sun that an old Alachua county boy, R. E. L. Robinson, of High Springs, had been promoted by the Atlantic Coast Line (meaning the appointment of Mr. Robinson to succeed Mr. Jolly as roadmaster of this district). If sobriety, punctuality, steadiness, veracity or dispatch deserves to be rewarded, it has certainly been well bestowed in this case."

Dr. Smoke's friends in this section will be glad to learn of his excellent success in his new home.

STREET FORCE BUSY.

Is Now Engaged in Placing North Gainesville Road in Condition.

The street force is now busily engaged in ploughing up and regrading the North Gainesville rock road from the Schafer bakery for a distance of four blocks north, and the thoroughfare will be treated to another coating of crushed rock and put in a passable condition.

This road has been in a most miserable condition for the past year or more, and has been becoming more dilapidated every week. It was a thoroughfare full of depressions, which have caused those who had occasion to use it no end of inconvenience. When the street force will have finished, however, it will be a smooth and acceptable driveway, and one which will be appreciated by those who have been accustomed to bumping over the uneven surface of the road.

Mothers' Meeting.

The Mothers' Meeting held at the W. C. T. U. reading room Monday afternoon was well attended, and a very informal but pleasant hour was spent, each one trying to contribute something for the general good, either in song, speaking or prayer. The topic of discussion was a continuation of the former one, "How to Prepare Food to Make it Both Healthful and Economical." Mrs. Alice Thomas was the leader and gave some very useful hints and suggestions.

The next meeting will be held two weeks from Monday unless further notice be given. We would be glad to have a larger attendance and will endeavor to give you a pleasant and helpful hour.

Chronic Coughs

NEED VINOL

it stops the cough because it cures the cause

This is the season for coughs and colds, and for the benefit of Gainesville people our local druggist, W. M. Johnson, tells them the best means for a cure.

He says: "Take Vinol, our real cod liver preparation without oil. It does not upset the stomach like cough syrups, and it is much more effective. Vinol is not a palliative but a curative."

This is because Vinal contains in a highly concentrated form all of the healing, strength creating and medicinal elements of cod liver oil actually taken from fresh cods' livers, with all the useless, nauseating oil eliminated and tonic iron added. It tastes fine and cannot upset the weakest stomach, hence its wonderful power to cure.

We ask every person in Gainesville who has a chronic cough or hard cold to try Vinol on our guarantee.—W. M. Johnson, Druggist.

NOTE—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

IN FAVOR OF BONDS.

Voters Almost Unanimously in Favor of Proposition.

The election Tuesday on the proposition to bond the city for ten thousand dollars to buy the old East Florida Seminary barracks lot, was probably the most quiet election ever held in Gainesville. The returns showed that 79 votes were cast, 69 being in favor of bonds, six against, and four ballots improperly marked. The latter, however, indicated that it was the intention of those who cast them to vote in favor of bonds.

Owing to the election being called at this time of year only seven persons were qualified to vote by reason of paying their fall taxes, hence the fate of the bond question was held in the hands of the older citizens, those over 55 years of age, and the result shows that they did their duty nobly.

It was one election, at least, where the old men controlled the situation, the younger generation not being in it.

THE STOCK HAS ARRIVED.

Carload of Fine Jerseys For Spring Park Farm Came Monday.

The carload of fine registered Jersey cattle purchased by Manager N. A. Callison of Spring Park farm from Belmont farms in Georgia, arrived via Atlantic Coast Line Monday afternoon. The cattle were in personal charge of T. H. Waterworth, head stockman at the Spring Park farm, and arrived in excellent condition.

This shipment will give to Spring Park farm one of the best assortments of blooded Jersey cattle in the State, and the herd is destined to prove of a great deal of profit.

A Jolly Party.

A jolly party has been organized for a hunting trip, and the hunters will explore the wilds of Alachua county in search of wild game before their return to Gainesville. They have gone with a whole lot of ammunition and determination, and if they don't kill anything it will be because they can't find it.

The party is composed of a number of the most successful hunters in this section, among whom are Sheriff L. W. Fennell, T. L. and J. L. Boulware, and F. F. Paulling of Lake View, all of whom are expert marksmen.

THE CHARITY ASSOCIATION.

Interesting Meeting Held, at Which Officers Were Elected For Year.

The annual meeting of the Charity Association was held on Monday evening at the First Presbyterian Church, at which officers for the ensuing year were elected as follows:

Rev. Thos. P. Hay, president; C. Matheson, treasurer; F. P. Bullock, secretary; Rev. S. B. Rogers, J. E. Wainwright and J. H. Jarvis, administrators; F. P. Bullock, Ferdinand Bayer and Mrs. J. W. Tench, executive board; M. B. Saunders, Mrs. A. M. Cushman, Mrs. John Chesnut and Mrs. J. E. Futch, membership committee.

This organization is a good thing for the people of Gainesville, as it relieves the citizens and business men of the responsibility of assisting every applicant who coms along asking relief. It has been a means of systematizing the acts of charity, eliminating to a great extent the systematic and indiscriminate begging which has been a custom in Gainesville for so long. It has relieved our citizens and business men to this extent, and is appreciated by those who have constant calls for assistance.

Prominent Visitor Here.

Among the prominent visitors to this city Tuesday was Hon. E. B. Littlefield of Massachusetts, a prominent business man of the Bay State, who stopped over for the day in order to secure some information from the United States land office relative to public lands in South Florida. Col. Littlefield seems to be deeply interested in Florida, and desired to take up a homestead in South Florida, where he will live in luxury and novel weirdness during the winter.

"I must admit that I am surprised at the apparent prosperity of Gainesville," he said. "I had entertained no idea that you had such a beautiful little city, and was very agreeably surprised when I took advantage of a little idle time to walk about your principal streets this morning. Your residences are elegant, your business houses appear to be up-to-date, and in all Gainesville looks to me like it would be a pretty good place to live in."

Public School Prosperous.

The University High School, under direction of Prof. Tom F. McBeath and an efficient faculty, continues to prosper. Prof. McBeath reported Monday night a total enrollment of 505, which is the largest the school has ever had in its existence.

Barbers Ages Ago.

The first barbers of whom there is any record plied their trade in Greece in the fifth century B. C. In Rome the first barbers operated in the third century B. C. In olden times in England the barber and the physician were identical. Thus a king's barber was also his chief medical adviser. In the time of Henry VIII. of England laws were made concerning barbers, of which the following is an extract: "No person occupying a shaving or barbery in London shall use any surgery, letting of blood or other matter, except the drawing of tooth."

After It Is All Over.

When yarns are being spun one hears a good deal concerning the curious antics people go through when highly excited, but very little is said about the man who "gets scared after it is all over." And the latter, not being so constituted that he can faint, as a woman often does after a fright, generally keeps his own counsel and often is given the credit of being cool and "nervy" when the fact is that his knees are ready to clump together for mutual support.—Forest and Stream.

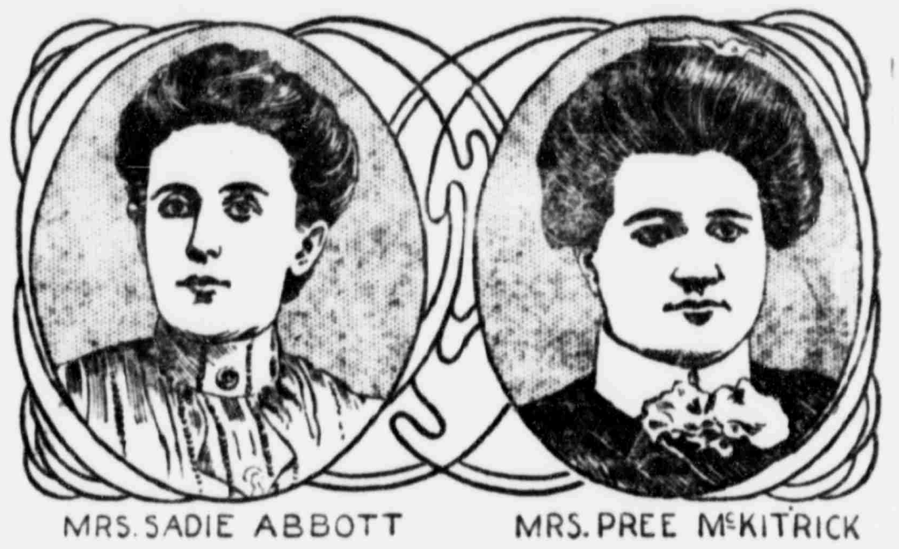
WORKING WOMEN, WHAT THEY SHOULD KNOW



MRS. SADIE ABBOTT MRS. PREE McKITRICK

Women for the most part spend their lives at home, and it is these women who are willing and ambitious that their homes shall be kept neat and pretty, their children well dressed and tidy, who do their own cooking, sweeping, dusting and often washing, ironing and sewing for the entire family, who call for our sympathy.

Truly the work of such a woman is "never done" and is it any wonder that she breaks down at the end of a few years, the back begins to ache, there is a displacement, inflammation or ulceration of the abdominal organs, a female weakness is brought on, and the struggle of that wife and mother to continue her duties is pitiful.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, is the exact medicine a woman needs whose strength is overtaxed. It keeps the feminine organs in a strong and healthy condition. In preparing for childbirth and recuperating therefrom it is most efficient. It carries a woman safely through the change of life and in making her strong and well assists her to be a good wife and mother.

Mrs. Sadie Abbott, of Jeannette, Pa., writes:

Dear Mrs. Pinkham—

"I suffered severely with pain every month and also a pain in my left side. My doctor prescribed for me but did me no good; a friend advised Lydia E. Pinkham's Vegetable Compound and I wrote you in regard to my condition. I followed your advice and am a perfectly well woman. The pains have all disappeared and I cannot recommend your medicine too highly."

Mrs. Pree McKitrick, of La Farge, Wis., writes:

Dear Mrs. Pinkham:

"For six years I suffered from female weakness. I was so irregular that I would go from three weeks to six months, so I thought I would give Lydia E. Pinkham's Vegetable Compound a trial.

"Now I am once more well and can do my work without a pain. Any one who wishes, can write to me and I will answer all letters gladly."

Women should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of female ills. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

A MEETING OF COMMITTEE

Notwithstanding That the Committee Did Everything Possible to Push the Work on Building, the Labor Was Scarce and Completion is Delayed.

The meeting of the committee of arrangements of Gainesville Lodge No. 890, B. P. O. E., was held Tuesday afternoon, to perfect arrangements for the banquet and entertainment which is to be held on the 21st inst. to commemorate the opening of the Elks' Home.

It was intended to open this magnificent institution on the 21st., which would have been Monday next, and Congressman Chas. B. Towne of New York, one of the greatest and most eloquent speakers in the United States, had promised to come, but owing to the fact that it will be impossible to complete the building by that time, it will be necessary to postpone the date.

It was intended to have Mr. Towne, with Congressman Frank Clark and other speakers, to entertain the guests upon this occasion with fine talks, and it may be that these arrangements can yet be made; but Mr. Towne is a very busy man, and his services are so frequently desired that it is impossible even for that distinguished gentleman himself to say positively whether or not he can be here.

The ladies of the city who have had the refreshments in charge were to have met last night, but they were informed by the committee that this would be unnecessary, as it would be impossible to hold the banquet, ball and reception at the time announced.

It is hoped that the house-warming can be held within a few days of the time originally set, and that Congressman Towne and Mr. Clark, with other speakers, can find it convenient to be present. It is greatly regretted by the committee of the Elks that they could not be ready at the date named, which was doubted from the first, owing to the scarcity of labor.

FLASHES FROM NEWBERRY.

Mr. Henry Watson and Miss Sybol Holt United in Matrimony.

Newberry, Jan. 15.—C. D. May is visiting relatives in Georgia.

Miss Ada Pearce was called to Alachua Saturday on account of the death of her father. Her many friends here deeply sympathize with her.

E. Mariconny of Alachua was in the city Sunday.

Gordon Kennedy has been taking in the sights at Tampa this week.

Postmaster Reid, Dr. Getzen, I. F. Lamb and others returned Monday from an outing of a week in the "wilds" of Florida. They of course report a fine time.

Prof. and Mrs. W. B. Hicks left Sunday for Hampton, where Mr. Hicks will engage in the mercantile business. This leaves our school without a principal. Miss Minnie Lee is in charge of the school until some one can be secured.

On the night of January 9th, Judge Henderson united in the bonds of holy matrimony Mr. Henry Watson and Miss Sybol Holt, at the home of the bride, eight miles north of Newberry. It was a happy time all round, and Judge Henderson "did" himself proud. After the ceremony the guests were invited to a big supper, and when that was finished all participated in an old-fashioned "breakdown." The contracting parties are well-known in this section, and their many friends wish for them all the joys of life, trusting that they will always be as happy as they were on the eve of their marriage.

Humor in the Far East.

Abdur Rahman, the late ameer of Afghanistan, had a grim sense of humor which was sometimes exercised without scruple. On one occasion a durbar he was holding was interrupted by a horseman in a state of the greatest excitement, rushed in declaring that the Russians were advancing to invade Afghanistan. Turning aside for a moment from the business in progress, the late ameer in the most inconvenient tones ordered his shahgassi to conduct the man to the summit of a certain watch tower. "Look you out well for the Russians," commanded Abdur Rahman, "for you do not eat until you see them arrive."—Grand Magazine.

A CAT'S EYES.

The Chinese Discovered Their Use as a Time Indicator.

The first European to learn of the use of a cat as a time indicator was M. Huc, who in a work on the Chinese empire tells how he was initiated into the mystery.

M. Huc and a party of friends set out to visit a Chinese Christian mission settlement among the peasantry. They met a young Chinaman on the road, and to test his intelligence they asked him if he could tell them the time. The native looked up at the sky, but the clouds hid the sun from view, and he couldn't read any answer there. Suddenly he darted away to a farm and returned in a few moments with a cat in his arms. Pushing up its eyelids with his hand, he told Huc to look at them, at the same time volunteering the information that it was not noon yet. While they were puzzling over the case the boy went about his business.

When the party reached the village, they asked the Christian converts if they could tell the time by a cat's eyes and how it was done. Immediately there was a wild hunt, and all the cats obtainable in the neighborhood were brought before them.

The Chinese pointed out that the pupils of a cat's eyes were gradually narrower up to 12 noon, when they became scarcely perceptible lines drawn perpendicularly across the eye, and after that dilation recommenced. Huc examined the eyes of several cats and verified what the Chinese had told him.—Chicago Chronicle.

AN ODD WAGER.

The Peculiar Bet a Foreign Prince Laid and Won in Paris.

Gambling has always been a favorite occupation for the sons of royal houses, but none of them probably has ever exhibited so much wit and ingenuity in his betting as a foreign prince did at his stay in Paris.

He laid a heavy wager with a member of the Imperial club of the French capital that within two hours he would be arrested by the police without committing any offense or provoking the officers of the law in any fashion. Accordingly, having clothed himself in rags of the most disreputable appearance, he walked into one of the most aristocratic restaurants in the city and ordered a cup of chocolate. The waiter refused to serve him unless he showed evidence that he could pay. The prince at once drew a roll of bank notes from his pocket and offered one of large denomination to the astonished attendant. The latter took the bill and carried it at once to the proprietor, who sent for the police, in the meantime allowing his strange guest to be served.

As soon as the authorities arrived they arrested the incognito son of royalty and took him to the nearest station, where of course he was released after he had disclosed the facts of the affair.—New York Tribune.

Color Blindness.

The term color blindness implies an entire absence of the color sense, and there are a few persons who are in this condition, but it also includes all the forms of partial color blindness in which the perception of one of the fundamental colors—red, green and violet—is wanting, and which are known as red blindness, green blindness and violet blindness. The line between these various kinds of color blindness and a perfect perception of colors is not sharply drawn, so that a large number of persons have what is called a feeble color sense, which falls short of actual color blindness. There is no doubt that color blindness in its various forms is much more common than is generally supposed, and it is more common among the imperfectly than the well educated classes.

RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acrid matter weakens and diseases the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is loaded into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acrid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.

Cuxhaven, Germany, Jan. 15.—The British ship Pengwern, Cautain Williams, from Taltal, Chile, Oct. 6, for Falmouth, with a cargo of Saltpeter, grounded off Scharhorn, about ten miles northwest of Cuxhaven. Twenty-four men, comprising the crew, were drowned and her cargo is a total loss. The tug Vulkan went to the assistance of the steamer, and passing closely to her, the crew of the Pengwern threw a live dog and a bundle of clothes aboard the tug, but disregarded the appeals to jump into the water that they might be rescued. The Vulkan made repeated attempts to reach the Pengwern, but a heavy sea broke over her and she disappeared from view.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

TARIFF ON LINOTYPES.

Twenty-six petitions from newspapers and printers were presented in the House of Representatives on January 3d against the tariff on linotype machines. The petitions were referred to the committee on Ways and Means, where they will repose in a pigeonhole until Congress adjourns, under the trust fostering care of the standpatters who run the Republican machine. Linotype machines are not specifically mentioned in the present tariff law, but are taxed 45 per cent under the general provision for all articles composed wholly or in part of iron or steel. If this tariff tax on the necessary machinery for newspaper publishers was abolished, there is no doubt that the competition of foreign-made type machines would force down the present exorbitant price of American-made machines to nearly one-half, and perhaps to much less.

As it has been semi-officially announced that there will be no extra session of the next Congress and that no attempt will be made to revise the tariff, the general feeling that tariff revision is necessary evidently has no effect on our standpat statesmen. The same authority, however, evidently fearing the wrath of an outraged people, indicates that the next national Republican convention will adopt a plank with a promise to revise the tariff "after election." Even if that promise is kept it postpones revision until 1909 or 1910. But if the Republicans succeed in electing the next President and a majority of Congress, will not the standpat leaders consider their success as an endorsement of the protective system and refuse to meddle with the sacred schedules? Or, as was proposed at the last session by Congressman McCleary in his bill, which was prepared under the direction of the Protective Tariff League by adding a maximum rate to the present schedules—that is, revise the tariff higher. In any event, Republican success would stiffen the backs of the trust-controlled Senate.

Does anyone believe that there is any intention by the Republican leaders to revise the tariff lower? Their constant preaching for the past forty years has been protectionism, and having thus converted a large majority of their party to believe that it is a cardinal doctrine, how could they turn around and throw protection overboard?

Those who remember the Granger uprising in the '70's and the ultimate enactment of the anti-trust and corporation legislation are likely to see it repeated this year and in the future with much greater effect. The Legislatures of all the Western States will have drastic propositions before them to curb the railroads and the trusts, and the Wall Street financiers of the Harriman type can thank themselves if the Grangers pinch them all they know how.

The shortage of railroad cars is in a great measure due to the railroad magnates using the surplus cash of the railroads in Wall Street stock-jobbing. There will have to be a law to compel railroad managers to use surplus cash to provide ample equipment and then to retire the bonded debt of the corporations, and rates to be reduced so that such surplus shall be moderate in amount after paying reasonable dividends.

Mrs. Lydia Commander, who scores race suicide in her late book, says: "In America two children in a family is the limit." Some families have only one child, and the neighbors regard it as the "limit."

The railroads may abolish Congressional passes, but they cannot ignore the laws that Congress passes.

Mrs. W. M. Maxwell, one of Jacksonville's oldest and most highly esteemed ladies, died on Sunday night, January 13th, at the home of her daughter, Mrs. W. J. Cook. Mrs. Maxwell was in her 88th year, and her life was a most exemplary one. She was the mother of Capt. D. E. Maxwell and C. W. Maxwell. Mrs. Maxwell reared a most interesting family and her life has been a most useful and worthy one. She was beloved by all who knew her, and lived to a ripe old age and took pride in her honored and highly respected family. Capt. Maxwell's thousands of friends throughout the State deeply sympathize with him in the loss of his dearest relative.

Less than twelve persons, exclusive of those over 55 years old, are qualified to vote in the Senatorial election to be held in Levy county February 26th. An effort will be made to have the date of holding the election changed to some time in March, so as to give the voters an opportunity to pay their poll taxes and thus qualify to vote.

The Print Paper Trust, the dissolving of which is cited as one of the great triumphs of Administration trust busting, is again getting in its work under a new name and organization. If the criminal law had been enforced against the trust magnates, they would not be so anxious to again take chances of punishment for disobeying the law.

TROUBLE FOR THE VATICAN.

Agnetic Anti-Clerical Demonstrations Attended by Rioting.

Madrid, Jan. 15.—There was a agnetic anti-clerical demonstration at ona Sunday which was attended by ne rioting. The government's en- agnetic precaution in holding the gar- ison in readiness prevented serious sturbances.

Reflections are that the ministry ill not last out the week, as the ef- rts for conciliation by the moderate nd advanced sections of the liberals ave been unsuccessful. The prin- pal point at issue is the proposed nti-clerical asociations law.

Doubt is expressed as to whether he liberals, although they have a trong majority in the chamber, will e able to form a new cabinet.

He Earned the Hat.

Barty Hilliard, who many years ago lived in a small town in northern Vermont, was noted for his careless vagabond habits, ready wit and remarkable facility for extempore rhyming. While he was sitting one day in the village store of what is now a part of Montpelier among a group of idlers the genial merchant asked him why he wore such a shockingly bad hat. Barty replied that he could not afford a better one.

"Come now," said the merchant, "make me a rhyme on a bad hat, and I will give you the best I have in my store." Instantly Barty threw the old one on the floor and began:

Here lies my old hat,
And pray what of that?
It's as good as the rest of my raiment!
If I buy me a better
You'll make me your debtor
And send me to jail for the payment.

The new hat was voted to be fairly won, and Barty bore it off in triumph, saying, "It's a poor head that can't take care of itself."—Boston Herald.

No Duplicate Chandeliers.

"Did you ever notice," said the observing man, "that every public building has chandeliers unlike those of any other public building? There are no duplicates. You go into one church and you see a handsome chandelier that it would seem worth while to duplicate for another church, but you never find it in another church. You go into a big hall, and you'll observe some stunning globes and chandelier fixtures and look for 'em in some other big hall, but they're not there. I don't know what principle the makers of chandeliers go on, whether it is a matter of pride with them not to fit out two buildings alike or whether contractors for such buildings insist on exclusive designs, but the chandelier people must employ some remarkably versatile artists to think up so many different designs. It seems like a waste of money to make only one of a kind, but it is a pleasure to know that hall or home may be exclusive in its chandeliers."

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

The Concertina.

The throaty revival of the concertina as a serious musical instrument in England would seem to point to an old fashion no doubt, but not to a very old one, since the concertina dates from the early part of the last century. Its invention was an early indiscretion of Sir Charles Wheatstone of telegraph fame, who took out a patent for it in 1829, the very year in which somebody in Vienna invented that similar instrument, the accordion. The concertina was popularized by Sig. Regondi, who had come before the public as a juvenile prodigy with the guitar. At one time no London concert was really complete without him and his concertina, and he astounded the Germans with the music he could get out of it.

Carrie Nation

certainly smashed a hole in the bar-rooms of Kansas, but Ballard's Horehound Syrup has smashed all records as a cure for coughs, bronchitis, influenza and all pulmonary diseases. T. C. H—, Horton, Kansas, writes: "I have never found a medicine that would cure a cough so quickly as Ballard's Horehound Syrup. I have used it for years." Sold by W. M. Johnson.

Gladstone as an Orator.

It was a budget last night—about a page of a morning paper spoken in two hours by Mr. Gladstone, and he hardly referred to a note, never paused a moment, broke through cheers, dashed over interpellations—logic, figures, illustrations, extracts—all pellmell, with a whirl and fury that took the breath away. And he did it all with the utmost ease and got to the end without turning a hair. Mr. Gladstone took it all quietly and did it quietly and left the house and went home quietly, probably mentioning to Mrs. Gladstone as a reason for being rather tired that he had been saying a "few words" that evening.—From Whitty's "Parliamentary Retrospect."

Temperatures of Flames.

According to the results of experiments, the flame of acetylene is perhaps the hottest known except that of the electric arc. The following figures have been given: Bunsen burner, 1,871 degrees; acetylene flame, 2,548 degrees; alcohol flame, 1,705 degrees; Denayrouze burner—half alcohol, half petroleum—2,053 degrees; hydrogen flame in air, 1,900 degrees; gas jet flame with oxygen, 2,200 degrees; oxyhydrogen flame, 2,420 degrees. These are all centigrade degrees. One degree centigrade equals 1.8 degrees F.

Too Fast.

"The first day he went out with his new auto he got pulled."

"For going fast?"

"No; quite the opposite."

"I don't see"—

"For stopping fast. He had to hire a farmer to haul him home."—Houston Post.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

Cooks Ruin Their Taste.

"I never season things up to my own taste," said a man who has cooked in a restaurant for many years. "Very few cooks do. They have palates that crave high seasoning. The longer they cook the more salt and pepper and spices they require. If I should send up my dishes as I like them, they would be so hot and peppery that half the patrons in the restaurant would be unable to eat them."—New York Press.

DR. HODGES' IDEA.

Was Not Intention of His Motion to Make an Expensive Street.

"It was not the purpose or intention of my motion before the City Council at a meeting a few nights ago to make an expensive street, when I moved that Pearl street, South Gainesville, be paved with rock," remarked Alderman J. Harrison Hodges to a representative of The Sun a day or two ago.

Dr. Hodges noted the editorial comment in The Sun, and stated in reply that he did not wish to be misunderstood by this motion. He stated that it was his intention, and the purport of the motion, that Pearl street from the south end of University street to the Atlantic Coast Line tracks be regraded, and that a thin coating of crushed rock be used to "cap" the thoroughfare. "The principal reason I had for making this motion was the fact that this road leads to the cemetery, and I desire to see it in a passable condition. My motion will contemplate in the ordinance the paving of that small 'stretch' around the packing house, which The Sun states is 'knee-deep in sand in dry weather, and knee-deep in mud in wet weather.' I agree with The Sun on that point, and that is what I am seeking to remedy."

HONOR TO MR. ROGERS.

Has Been Invited to Make Address Before J. B. Stetson University.

Rev. S. B. Rogers, pastor of the First Baptist Church of this city, has been extended the honor of an invitation to deliver an address to the board of directors and the school in general of John B. Stetson University, upon the occasion of presentation day, which will be held on Thursday, February 14. This is not only an honor to Mr. Rogers, but a compliment to the city, and one which the people of Gainesville, as well as the pastor, will appreciate.

Mr. Rogers is one of the most eloquent orators in the State, and it goes without saying that upon this occasion he will be at his best.

Local Christian Endeavor News.

The North Gainesville society has lately received two gifts of which they are highly appreciative.

One is a hammered brass finger bowl from Ahmednagar, India. The hammered work was done by the orphan boy of whom the society is patron. The bowl will be used on missionary nights for taking up the collection for the orphan fund.

The other gift is a devotional book, "My Best Friend," from Miss Emma Hughes, State Union Superintendent of Correspondence.

Among the South Florida people who spent Monday in Gainesville was Col. J. W. Burton, a well-known attorney of Arcadia, who came on business connected with the United States land office. While here Col. Burton was shown about the city through the courtesy of B. F. Hampton, secretary of the Board of Trade. He admired the city and its surroundings, and was especially impressed with the new University of Florida, which he visited and inspected.

The sale of lots near the University by M. J. Orr yesterday proved a grand success, Mr. Orr disposing of a majority of the lots at good prices, though they are considered cheap at this time. R. H. Kinnebrew, the real estate man, conducted the sale in a clever manner, inducing many buyers, many of whom admitted that they went to the place merely through curiosity, but after they arrived and saw the lots and their location became convinced of their value.

Jack Vaison, for several years a popular conductor on the A. C. L., but who for the past ten years has been railroading in Mexico and Texas, was in town yesterday. He is now running a train between San Antonia and Galveston, Texas. Mr. Vaison is delighted with the progress Gainesville has made during the ten years of his absence. His friends were glad to see him again and to learn that he is prospering.

Daniel Chesser, one of the oldest and best citizens of the LaCrosse section, was in town yesterday. Uncle Dan's Gainesville friends are always glad of the opportunity to shake his honest hand.
